Faculty Opening!

Department of Neurosurgery and Brain Repair

The University of South Florida Morsani College of Medicine is seeking fellowship-trained candidates in Functional Neurosurgery at the Assistant/Associate Professor level to join our growing team at USF Health and Tampa General Hospital (TGH).

Successful faculty candidates will be appointed in the Department of Neurosurgery and Brain Repair. Faculty will provide neurosurgical treatment at one of the Southeast's largest critical care units at TGH, and will participate in teaching and clinical research.

Additional information regarding the position can be found on USF Career Source (Job ID 25958)
