

Press Briefing on Recent Clinical and Preclinical Advances in Focused Ultrasound

Revolutionary Noninvasive Therapy Shows Promise for Immunotherapy and Opening Blood-brain Barrier to Enable Treatment of Neurological Disease and Cancer

Monday, October 22, 2018 • 12:00-1:30pm ET • Hyatt Regency Reston, Virginia

Featured Experts

Focused Ultrasound Overview

Neal Kassell, MD

Chairman
Focused Ultrasound Foundation
Speaker

Jessica Foley, PhD

Chief Scientific Officer
Focused Ultrasound Foundation
Moderator

Blood-brain Barrier Presentations

Nir Lipsman, MD, PhD

Neurosurgeon
Sunnybrook Health Sciences Centre
Speaker

Alexandre Carpentier, MD, PhD

Neurosurgeon
Hospital Pitié-Salpêtrière
Assistance Hôpitaux De Paris
Panelist

Nathan McDannold, PhD

Associate Professor, Radiology
Brigham & Women's Hospital
Harvard Medical School
Speaker

Jürgen Götz, PhD

Director, Centre for Ageing Dementia Research
Queensland Brain Institute
Panelist

Richard Price, PhD

Professor, Biomedical Engineering,
University of Virginia
Panelist

Cancer Immunotherapy Presentations

David Brenin, MD

Chief of Breast Surgery
University of Virginia
Speaker

Timothy Bullock, PhD

Associate Professor, Pathology
University of Virginia
Panelist

Katherine Ferrara, PhD

Professor of Radiology
Stanford University
Speaker

Joo Ha Hwang, MD, PhD

Professor, Gastroenterology &
Hepatology
Stanford University
Panelist

Jill O'Donnell-Tormey, PhD
