[Journal of Therapeutic Ultrasound!](#)

Journal of Therapeutic Ultrasound is the premier open access journal focused on the rapidly growing field of therapeutic ultrasound and aims to publish the most cutting-edge research on non-invasive therapeutic technology as an alternative to surgery or radiation. The journal's mission is to accelerate the adoption of therapeutic ultrasound as a clinical tool and prevent unnecessary death, disability and suffering for patients worldwide.

Need help with APC funding?

We offer a free open access support service to make it easier for you to discover and apply for article-processing charge (APC) funding.

Waiver policy

If you have a genuine lack of funds after exploring your possibilities, BMC may be able to consider a waiver for your article on a case-by-case basis. This needs to be requested during the submission process. We will provide a waiver or discount if you are based in a country which is classified by the World Bank as a low-income or a lower-middle-income economy with a gross domestic product (GDP) of less than \$200bn. Please request this waiver or discount during submission. [See here for further information](#) and a full list of qualifying countries.

We look forward to read your work!
